

THE AEOLIAN ISLANDS

aboard MY Lutetia

The archipelago takes its name from the god of the winds: Aeolus. These stunning seven islands are located in the north-eastern area of Sicily, in the Tyrrhenian Sea.

You will encounter hidden bays, crystal clear waters, unique and local flavors and, breathtaking sunsets. All this accompanied with exquisite local wines, the scents of the culinary specialties, experiencing memorable emotions.

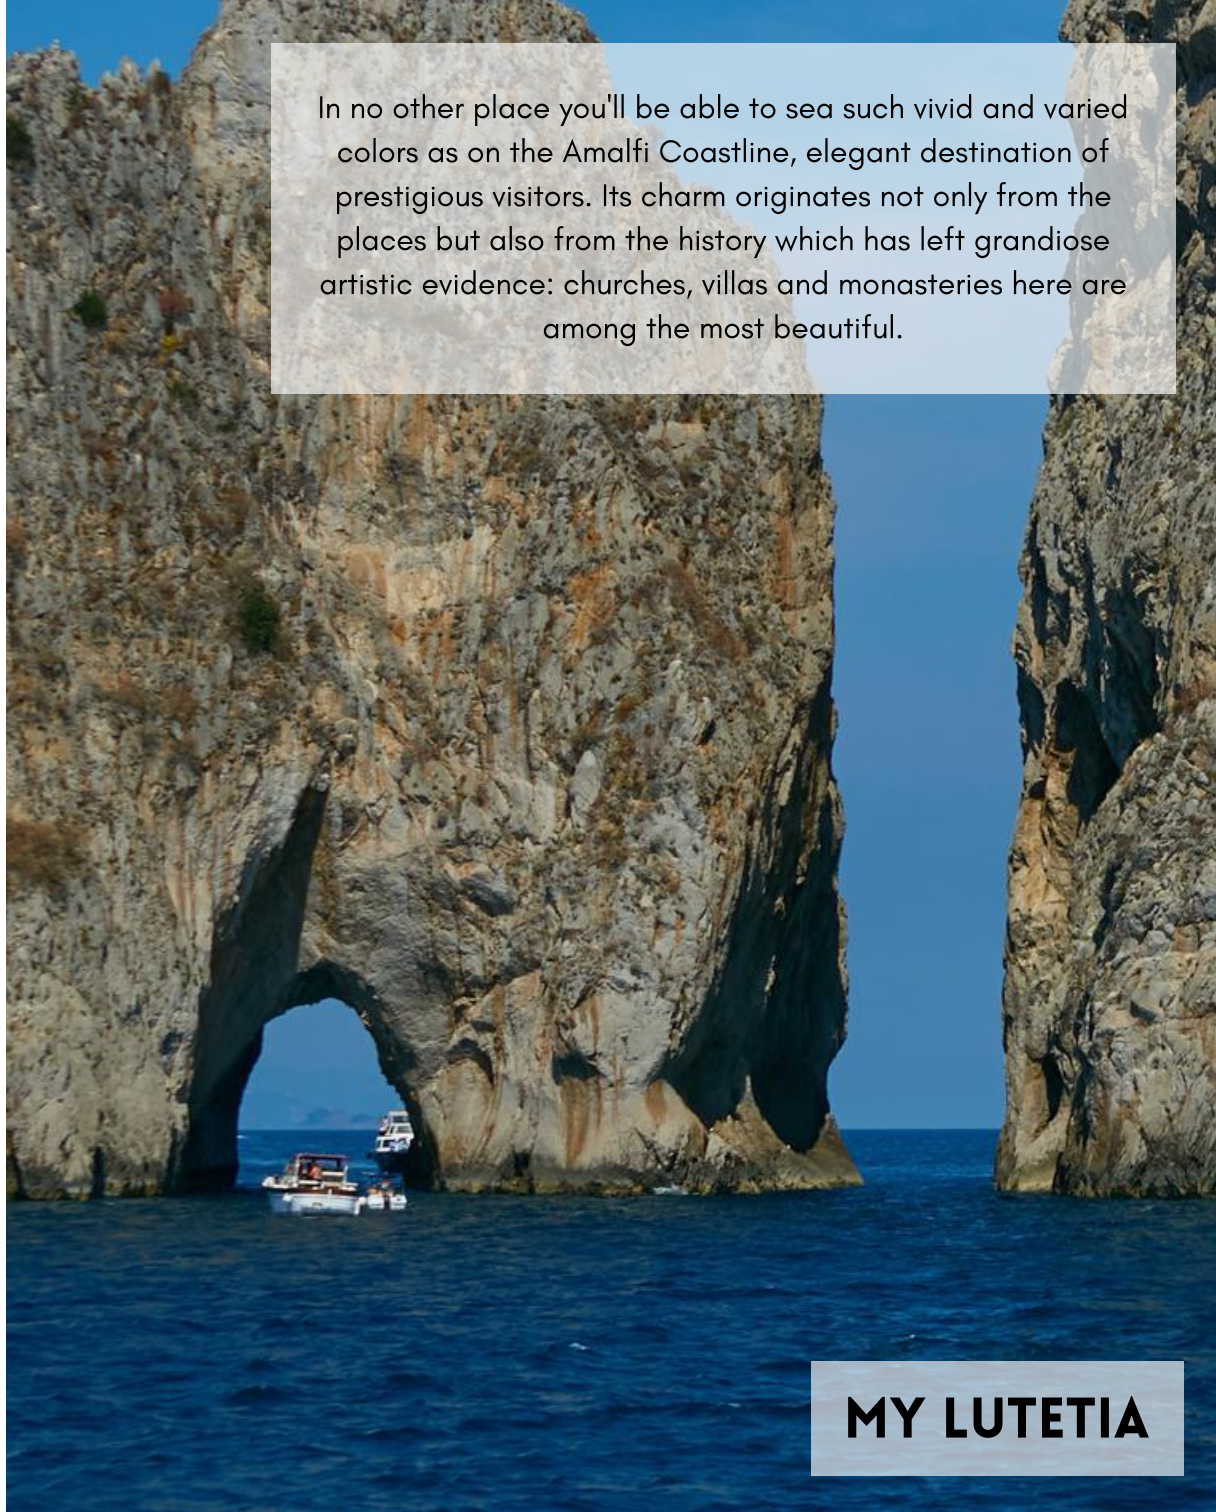

This is the Aeolian archipelago, made up of seven “sisters” islands.

MY LUTETIA

In no other place you'll be able to see such vivid and varied colors as on the Amalfi Coastline, elegant destination of prestigious visitors. Its charm originates not only from the places but also from the history which has left grandiose artistic evidence: churches, villas and monasteries here are among the most beautiful.

MY LUTETIA

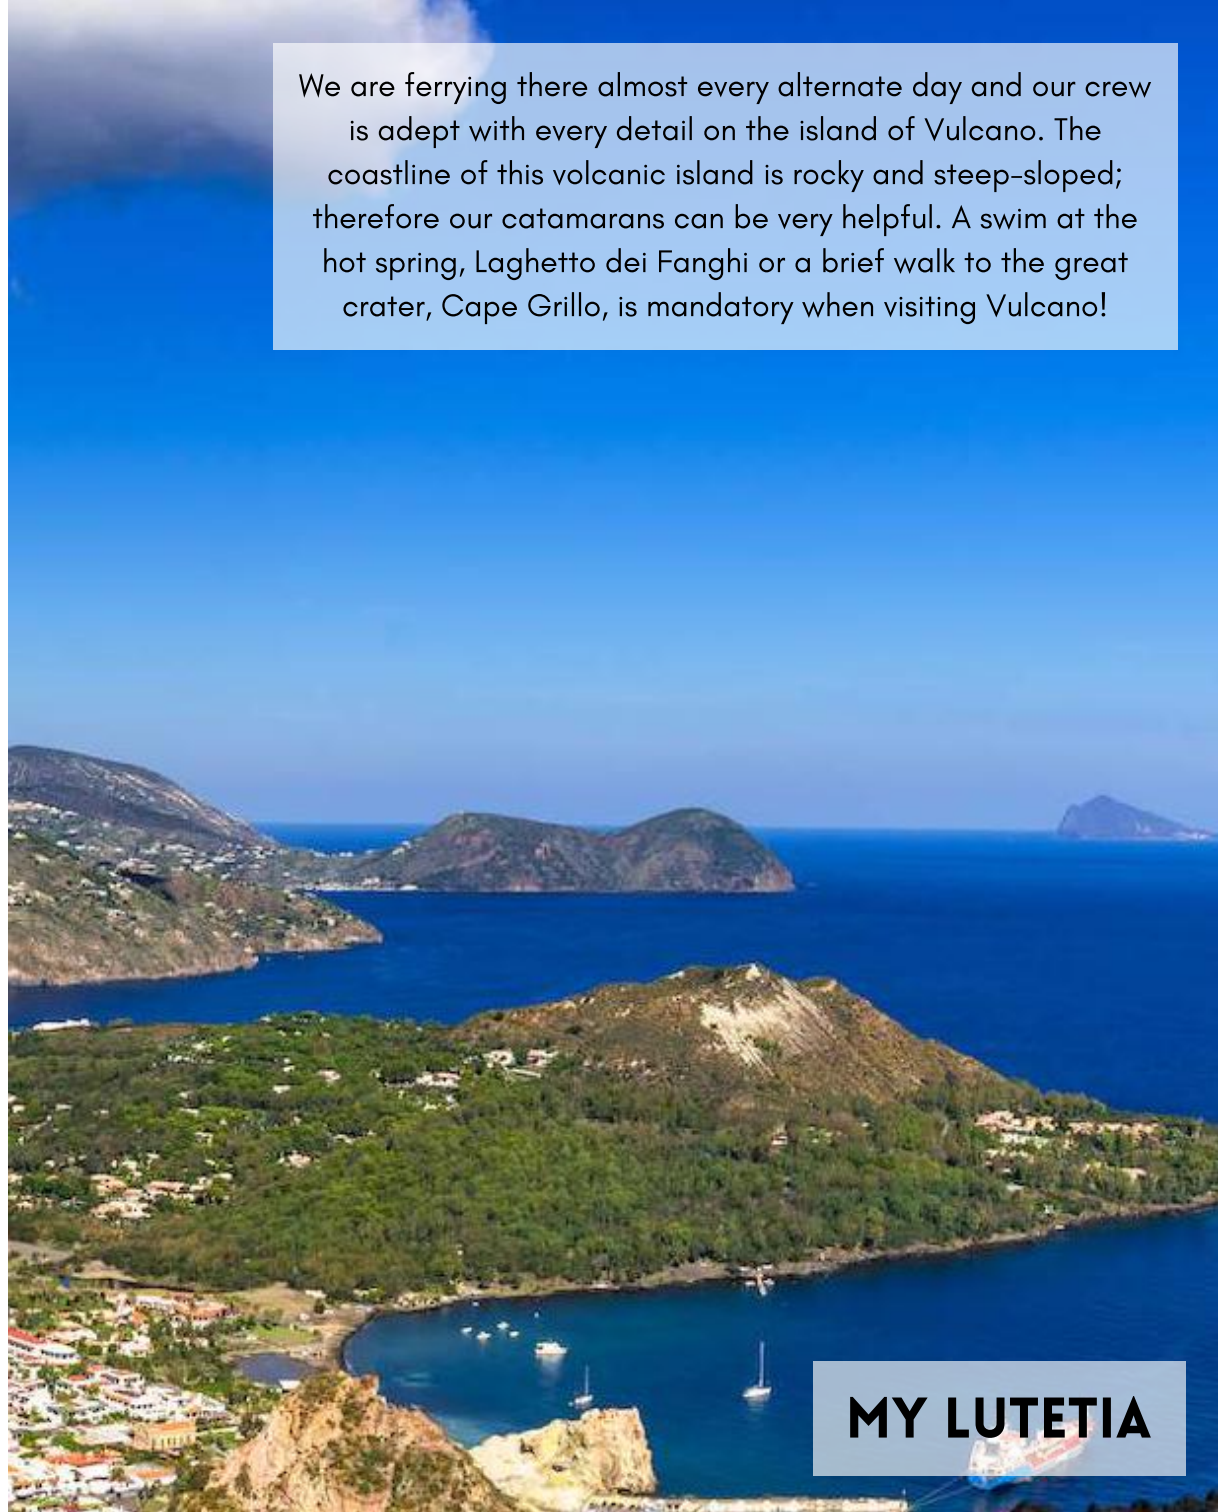

VULCANO

The ancient Romans considered Vulcano as the chimney of Fire God's workshop which now has become one of the most desirable vacation spots, 10 nautical miles off the coast of Milazzo. The best way to reach this southernmost island of the Aeolian conglomerate is by hiring our MY Lutetia!

MY LUTETIA

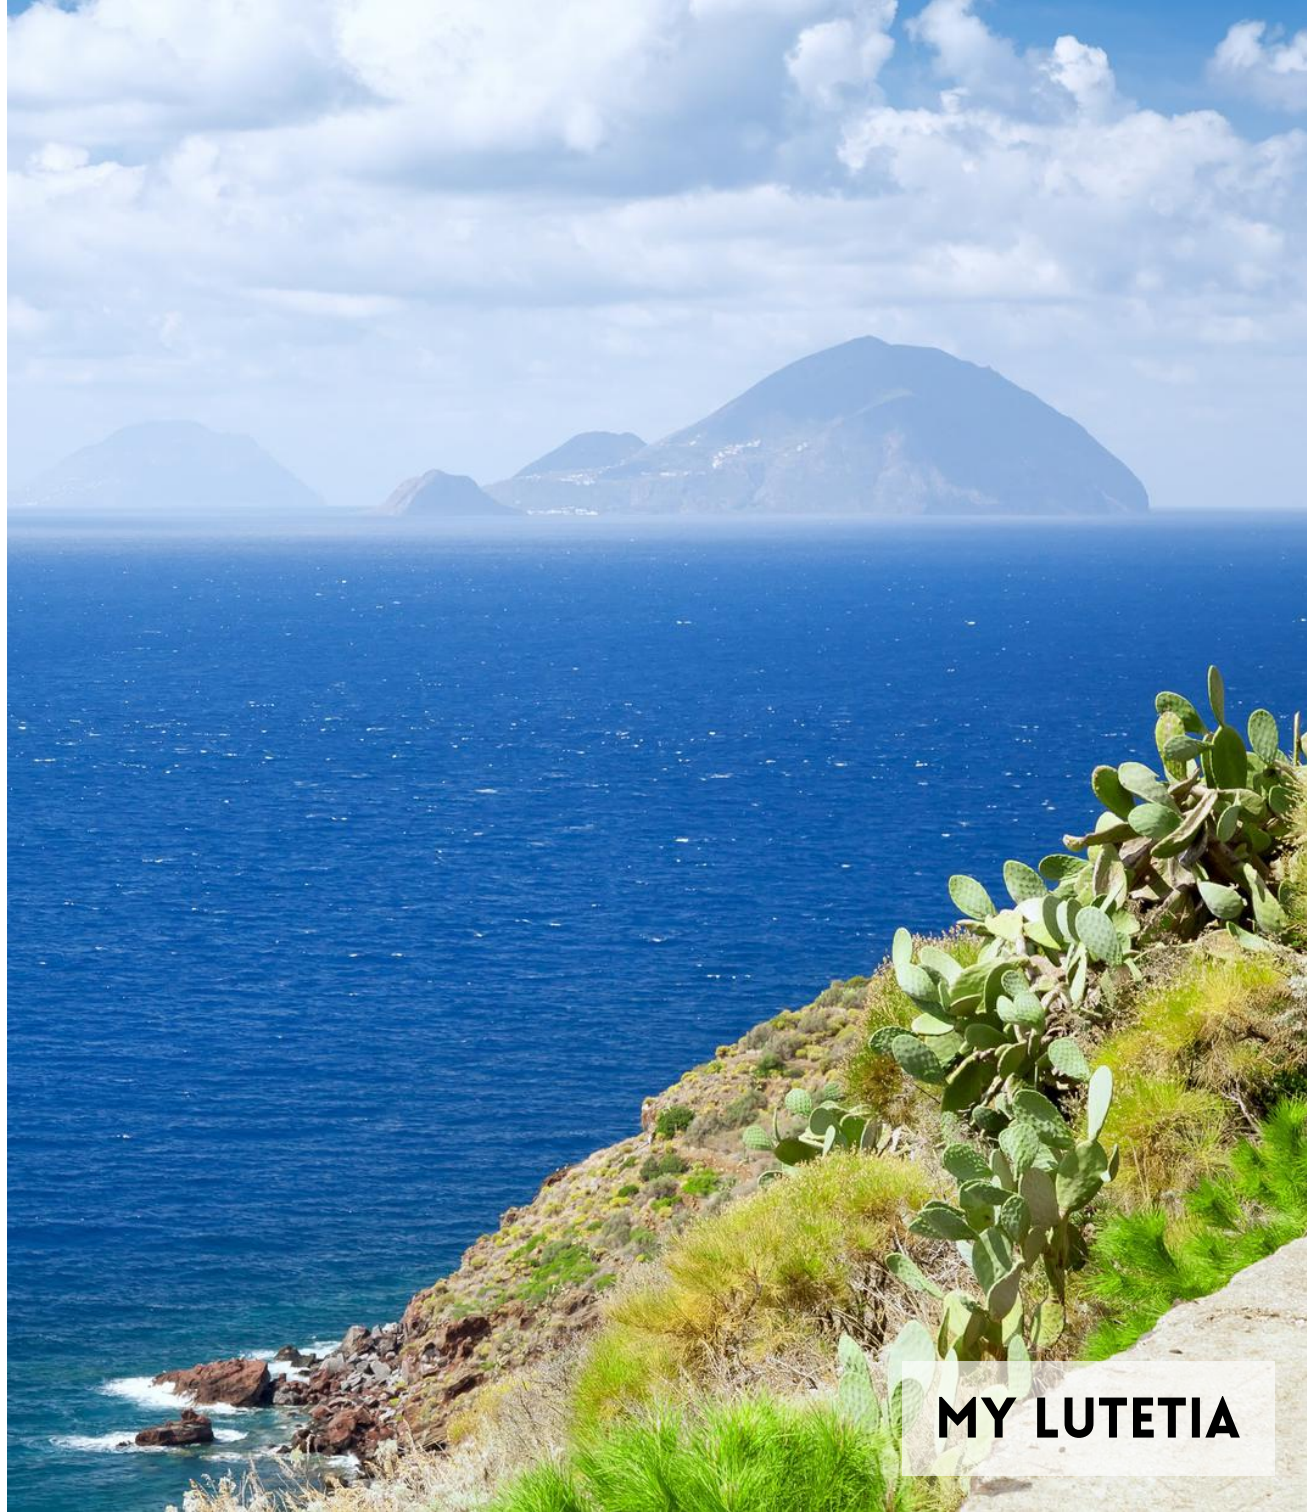

We are ferrying there almost every alternate day and our crew is adept with every detail on the island of Vulcano. The coastline of this volcanic island is rocky and steep-sloped; therefore our catamarans can be very helpful. A swim at the hot spring, Laghetto dei Fanghi or a brief walk to the great crater, Cape Grillo, is mandatory when visiting Vulcano!

MY LUTETIA

LIPARI

Lipari has the busiest port and the largest town among all the Aeolian Islands. The pastel coloured seafront offers a panoramic view of the low lying macchia which is a typical kind of dense Mediterranean shrubbery along with wind-swept highlands, steep cliffs and a dreamy blue ocean. Thanks to her main base in Milazzo, Lutetia will collect you in Lipari in less than 1 hour cruising.

MY LUTETIA

The island has been under the reigns of all principle Mediterranean powers over the course of history - the Carthaginians, Romans, Greeks, Arab, Normans, Aragonese - each leaving behind traits of the culture and ethnicity. Therefore, you can well understand that a sail along the coast of Lipari will be almost synonymous to trailing down the tracks of Mediterranean history!

MY LUTETIA

STROMBOLI

A routine cone, more than 900 meters high, was called the “Lighthouse of the Mediterranean” in ancient times.

Stromboli by night aboard MY Lutetia the Aicon 75 Fly is a must in Sicily.

It's truly, the single volcano in the world with a routine and constant activity since at least 200 years past. Because the view of the eruption is spectacular the coming on the island at night time will excite you.

MY LUTETIA

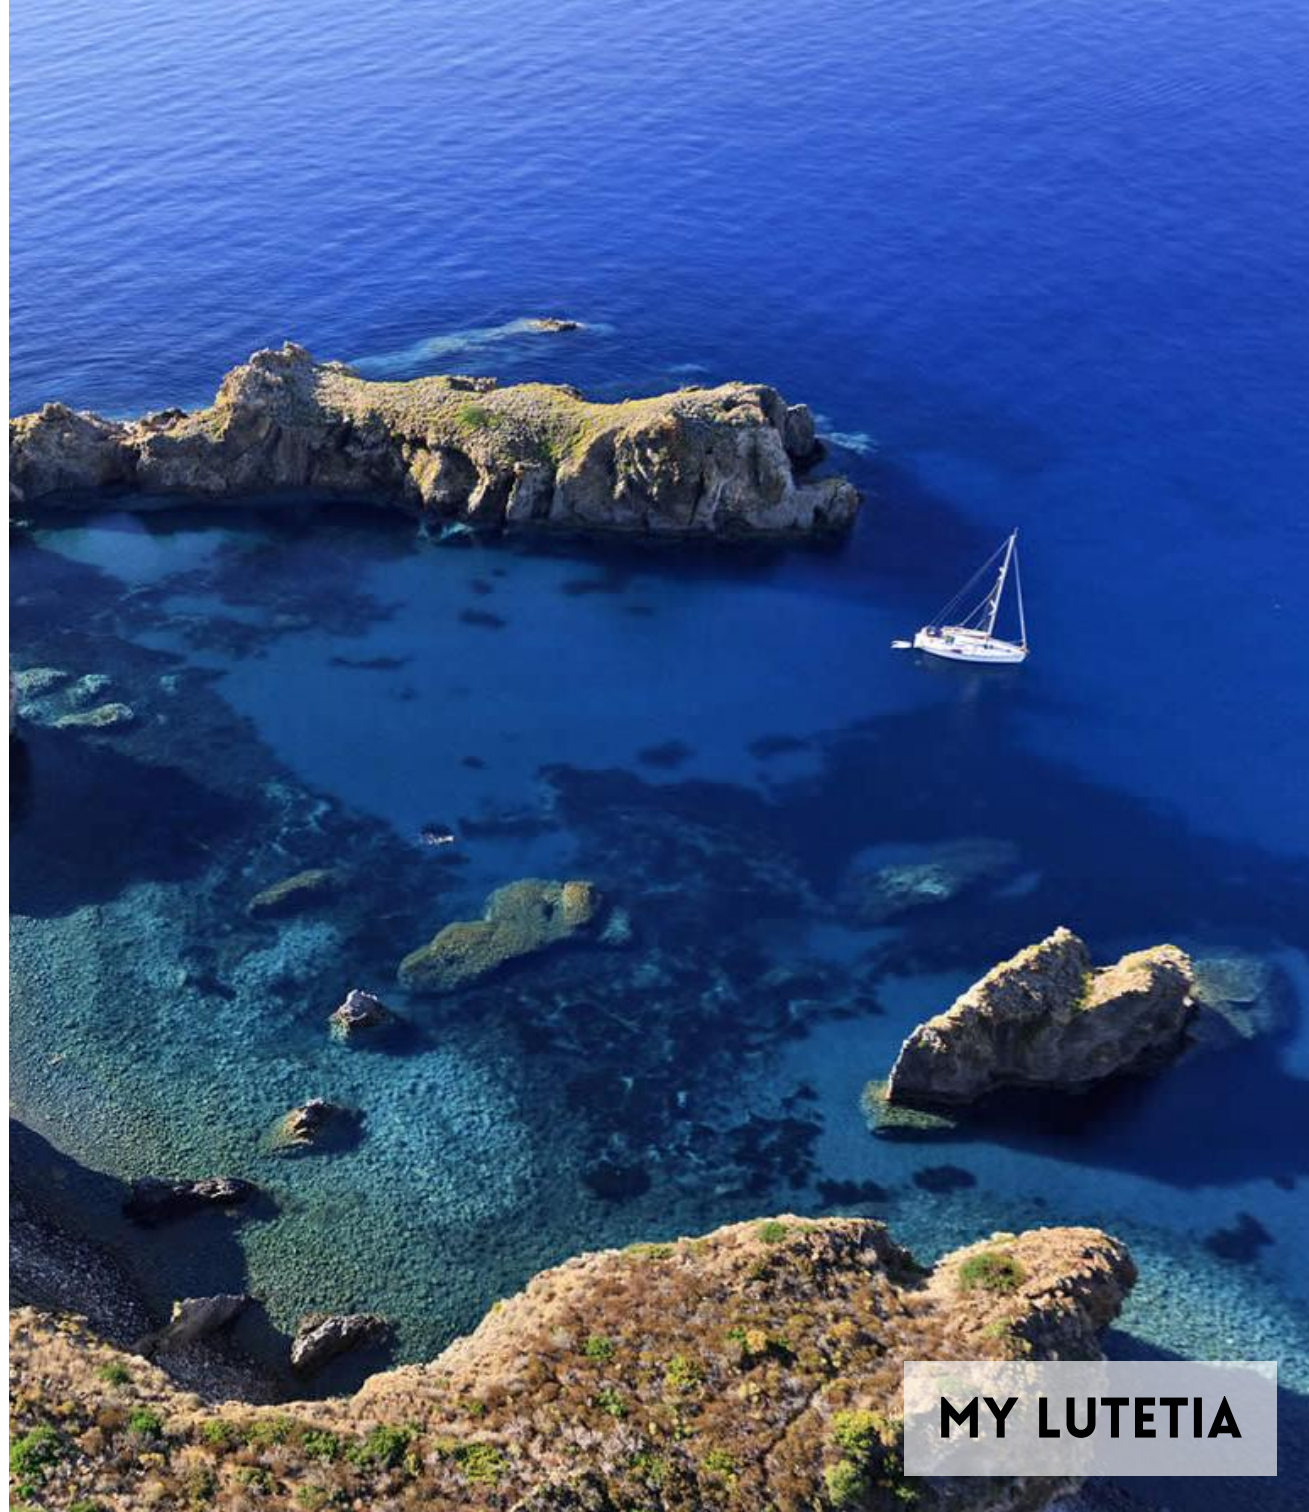

The only anchorages and only populated hamlets are Ficogrande and Ginostra as well as really there are not any refuges in case of strong wind from any direction. A charter in Stromboli aboard MY Lutetia is a unique experience.

MY LUTETIA

PANAREA

Panarea is exclusive, tiny, and pricey, but spectacular. It's also the very best island for nightlife—the handful of pubs and nightclubs here are the principal hangout for the rich and amazing. Panarea - only northeast of Salina - is a polished gem of an island. Anchor MY Lutetia in Panarea and drink your cocktail at Raya Club, enjoying a breathtaking sunset on Stromboli.

MY LUTETIA

It's picture perfect, with white hamlets garlanded in glowing bougainvillea, narrow lanes (there are no cars on the island, only golf carts and electrical bikes), and among the wager clubs in Italy.
